CORE APPLICATION AREAS

DEVELOPMENT

From direction to detail

A disciplined inquiry process keeps construction, appearance and delivery expectations aligned from the first brief.

01

BRIEF

02

REVIEW

03

SAMPLE

04

APPROVAL

Share end use, visual reference, material preference, dimensions, color and target quantity. The final construction and commercial terms are confirmed against each specification.

Six product directions

Each collection is built around visual references that can be developed into an approved specification.

01 / WEBBING

Solid, stripe, jacquard and decorative woven directions.

02 / ELASTIC

Elastic bands for apparel, activewear and accessories.

03 / CORDS

Drawcord, braided and finished cord details.

04 / KNITTED TRIMS

Knitted tapes, rib trims and narrow accessories.

Color. Texture. Construction.

A contemporary webbing collection for straps, garment details, bags and accessories.

Specify material, width, thickness, color standard, weave direction and end use for a focused technical review.

Graphic by construction

An expressive surface for logos, stripes and repeat patterns.

DESIGN INPUT

Provide vector artwork, repeat size, intended width, color references and placement.

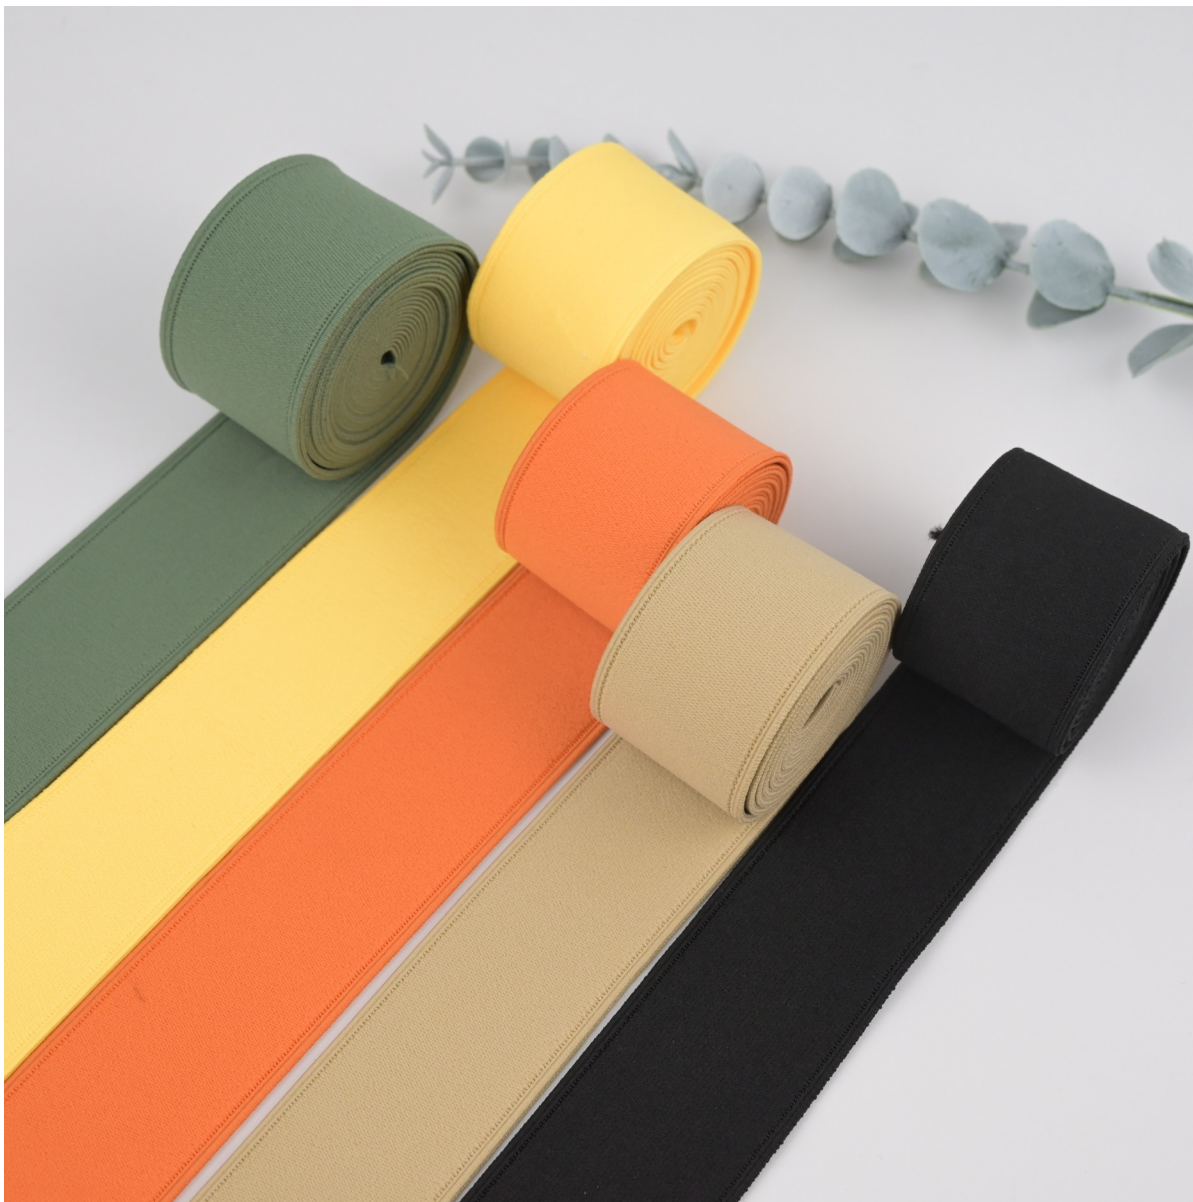

APPROVAL INPUT

Confirm an agreed sample or color / construction reference before bulk production.

INQUIRY PROMPT — “Please quote jacquard webbing based on our artwork, target width and required quantity.”

Built for movement.

Visual directions for apparel, underwear, activewear, headwear and accessory development.

Stretch

REQUIREMENT

Recovery

REQUIREMENT

Edge feel

REQUIREMENT

The suitable fiber composition and construction depend on the end use and required performance.

The finishing line

Drawcord and rope details with varied color, braid and end-finish directions.

DEFINE THE CORD

Diameter, material preference, braid / construction, color, cut length and intended use.

DEFINE THE FINISH

Tips, knots, loops, labels, hardware and packing format when required.

A softer visual rhythm.

Stripe, geometric and solid-color knitted tapes for decorative and functional garment details.

The detail that resolves the garment

Narrow trims give a product its finish, edge and visual signature.

RIB TRIMS

Share garment opening size, desired recovery, color and hand-feel reference.

ACCESSORY TRIMS

Share dimensions, material preference, branding requirement and application details.

APPLICATIONS

Designed to move with product.

Representative uses show narrow textiles supporting both function and visual identity.

Apparel

COMFORT

Sportswear

RECOVERY

Accessories

IDENTITY

Confirm wash requirements, edge feel, colorfastness and attachment method for the intended application.

Bags, footwear & outerwear

Straps, drawcords, decorative tapes and trim details in finished-product contexts.

For bags and footwear, share load, abrasion, hardware interface and target performance requirements. For fashion applications, share care expectations, hand feel and visual reference.

QUALITY DOCUMENTATION

Credentials that support review.

The following supplied documents are available for buyer due diligence. Scope, validity and product applicability must be confirmed for each inquiry.

ISO

9001:2015

OEKO-TEX®

STANDARD 100

GOTS

VERSION 7.0

GRS

VERSION 4.0

MANAGEMENT & PRODUCT

ISO 9001:2015 and OEKO-TEX® STANDARD 100 documents are supplied in the asset folder.

TEXTILE SCOPE

GOTS Version 7.0 and GRS Version 4.0 scope certificates are supplied in the asset folder.

REQUEST THE CURRENT CERTIFICATE COPY AND CONFIRM SCOPE, VALIDITY PERIOD AND PRODUCT COVERAGE BEFORE ORDER PLACEMENT.

Documentation, visibility, review

Manufacturing imagery and audit documentation supplied for buyer due diligence.
